WEST LAKE HYDROGEOLOGY STUDY
CHRONOLOGY & CURRENT STATUS

Site:	West Lake (W)
ID #	WBLD07990932
Break:	17.8
Other:	1-4-89

Date	Activity
? 1985 ?	Groundwater study required during solid waste permit review process.
11/18/85	Permit #118912 issued. Condition #3 required an environmental assessment, including hydrogeologic investigation. Hydro investigation to be used to develop monitoring program and assess necessary remedial action.
11/4/86	<u>Hydrogeologic Investigation, West Lake Landfill, Primary Phase,</u> submitted to comply with condition #3, permit #118912.
3/30/87	Comments on Primary Phase report received from Mr. Bill Weis.
8/14/87	Draft WMP comments forwarded to Burns & McDonnell, including 3/30/87 memo.
9/4/87	Memo from Mr. Bill Weis to File discussing short and long term monitoring parameters.
10/9/87	WMP comment letter to operator.
1/5/88	Operator response to WMP comments.
2/17/88	Memo from Mr. Bill Weis to Mr. Tom Gredell. Basically is satisfied by 1/5/88 operator response. "...final decision of upgradient wells (left) to Solid Waste and EGLS." (See partial handwritten notes in file.)
8/8/88	U.S. NRC report received.

Current Status: Need to evaluate 1/5/88 response in accordance with 10/9/87 comment letter and also 2/17/88 superfund memo. Upon completion of evaluation, a second comment letter would be prepared. or an approval for the Primary Phase would be issued, whichever is appropriate.
